PROFILE

Triple-e Holding Company was founded in Kuwait during 2007 as a subsidiary of Al Imtiaz Investment Group. Through our subsidiaries, we operate in the fields of upstream and downstream oil and gas, power, engineering and construction in the Middle East. We engage in upstream oil and gas exploration and development activities; in the provision of specialized engineering and technical services in the oil and gas sector.

Through our strategic partnership, we also provide drilling services and workover activities. Besides, Triple e offers engineering, procurement, construction, project management, engineering talent recruiting and secondment services for oil and gas upstream, refineries, petrochemicals, power generation, and infrastructure sectors.

WHY WE EXIST?

Triple e is a results-oriented company in the field of O&G that enhances value for shareholders by creating a culture of health, safety and environmental stewardship in an atmosphere of optimism, teamwork, creativity and resourcefulness and by dealing with everyone (including clients) in an open and ethical manner.

TRIPLE E VALUES

SUPERIOR CUSTOMER SERVICE

Establish strong customer relationships, striving to deliver highest quality service that addresses our customer's unique needs

INNOVATION, EXCELLENCE & COMMITMENT

Adaptable and flexible as we approach every challenge, designing sensible and innovative solutions.

INTEGRITY

Honor our commitments, operate with the highest degree of ethics, treat everyone with respect and meet or exceed all local and governmental regulations.

RESPONSIBILITY TO SHAREHOLDERS

Endeavor to enhance our shareholders wealth

HEALTH AND SAFETY

It is our number one priority

CHAIRMAN'S MESSAGE

MOHAMMAD HUSAIN

Chairman, Triple e Holding

"Triple e enjoys a sustainable foundation for long term organic growth due to the integrated nature of our business"

Triple e, through its various subsidiaries and group companies, has attained prominence as a front runner in the field of oil and gas services, construction and engineering through competence, competitiveness and timely delivery with highest quality standards and recognized safety performance. We take pride in our remarkable growth over the years, mainly owing to our partners, shareholders and customers.

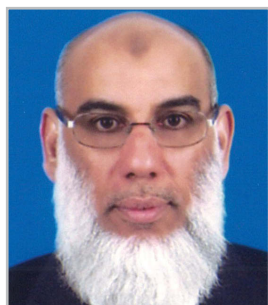

We have proven over the years that our versatility and adaptability to meet the customer requirements differentiates us from our competitors. For us, cooperation and teamwork are the most important enablers in achieving our goals. We will always work hand in hand and together with our renowned partners, agencies, customers and local authorities. We tend to gather the best in their expertise and thus we have on board with us partners and names that guarantee success and quality. While sectors evolve and economies change, we adapt and our businesses last. Our constant pursuit of three fundamental goals are key to our success: to strive to be the best in the fields in which we operate, to uphold strong corporate governance and to make our company a place where all employees are eager to work. But most of all, our guiding principle has always been, to create long-term value for all our shareholders.

As we look forward for the years ahead, we renew our pledge to remain committed to excellence, keep abreast of changes and innovations, adopt better management and expand into and successfully overcome all challenges before us by focusing our enhanced strategy of:

- Continuing to efficiently and opportunistically undertake our development in the oilfield services activities in the near term, and improve operational performance;
- Further diversifying into clean and renewable energy segments; and
- Identify more business opportunities and explore possibilities of geographical expansion that create satisfactory returns to the shareholders

BOARD OF DIRECTORS

BOARD MEMBERS PROFILE

MOHAMMAD HUSAIN

Chairman of the Board

PROFESSIONAL EXPERIENCE

The image features a tall, white lattice-structured oil derrick or drilling rig against a clear blue sky. The rig is positioned on a blue industrial platform. The text "OILFIELD SERVICES" is centered in white, serif, all-caps font. Decorative geometric shapes in yellow, blue, and orange are located in the top right and bottom right corners of the slide.

OILFIELD SERVICES

OILFIELD & DRILLING SITE PREPARATION SERVICES

Triple e provides most reliable and professional oil industry construction services in Kuwait. With the help of our experienced workforce and subject matter experts, Triple e prepares and constructs drilling locations that are critical to the success of the drilling operation. Here is a list of some of the services that Triple e offers for site preparation:

- Site Grading
- Erosion and Sedimentation Controls
- Road construction
- Well Pad Construction
- Complete development of location sites, reserve pits and access roads
- Hydroseeding, site reclamation and erosion control services
- Soil cementing and permanent rock locations
- Pipeline and Utilities Installation

ARTIFICIAL LIFT SERVICES

Through our internationally renowned partners, we help our customers to effectively use the artificial lift technology to maintain and maximize their oil production. In order to help our customers to achieve their business objective, we deploy our integrated artificial lift solutions to overcome their technical challenges they may encounter.

Our experienced subject matter experts and technical team provides a suitable advice to the clients on the best artificial lift solutions throughout the lifecycle of your well and then keep them operating at peak performance to deliver the production rates the clients expect at the lowest possible lifting costs.

The line of artificial lift products and services offered in the Kuwait market by us, including:

- Electrical submersible pumping (ESP) systems
- Progressing cavity pumping (PCP) systems
- Rod lift systems (Sucker rod pumps)

LOGISTIC SERVICES

At Triple e we provide transport and logistics solutions to Oil, Gas and Industrial Projects for our clients and partners. Through our network of workforces and skilled manpower, we provide our clients with a large variety of services ranging from fuel handling, water and sewage transportation to complete the projects on time.

Our project teams - consisting of experienced specialists, technical engineers, stevedore foremen, and HSSEQ experts - offer the highest level of personal service, transport and logistics solutions with HSSEQ as a top priority.

Our teams deliver precise planning for all types of projects combining local expertise with global knowledge.

HEAVY EQUIPMENT RENTAL

Our subsidiaries and business network provide the largest heavy equipment rental fleet in Kuwait. From our portfolios, we offer earthmoving machines, excavators, loaders, backhoes, pavers and compactors, work tools and power generators primarily to all the major top-tier brands in Kuwait.

From heavy equipment rental to power generation, from trenching or shoring to scissor and telescopic boom lifts, we have the equipment you need to get the job done. Whether the clients operate in oil and gas, general construction, industrial, manufacturing, commercial building, utility contracting, road building or landscaping, we can provide rental services for everything to meet their needs with our equipment rental service.
